Application for the Jenner Wind Power Project has been received

Proceeding 21394 Application 21394-A001

The Alberta Utilities Commission, the independent utilities regulator, will be considering the wind power plant development application in Proceeding 21394. If you feel you may be affected by this application you can provide input to the AUC to review before it makes its decision.

Power Renewable Energy Corporation has applied to construct a 120-megawatt wind farm, named the Jenner Wind Power Project, under the *Hydro and Electric Energy Act*. The Jenner Wind Power Project boundary is approximately three and a half kilometres east of Jenner, Alberta.

Additional information about the application

For full application details visit the AUC website, log on to the eFiling System, enter the proceeding number and select go. Power Renewable Energy Corporation's application is a phase I buildable area application where the applicant has applied for approval of the areas in which it proposes to construct the project. If the phase I application is approved, the exact turbine type and locations will be applied for in a separate phase II application to the Commission.

Written submissions are due May 13, 2016.

If you wish to participate in this proceeding, you may be eligible for funding to support your position, which includes costs for legal representation and expert witnesses.
