

Sunlight Partners, LLC
4115 E Valley Auto Dr.
Mesa, AZ 85206

SP-5040 SUB 0

OFFICIAL COPY

Feb 06 2015

January 30, 2015

Dear Ms. Mount

This filing is for an ***Application For Certificate Of Public Necessity And Convenience (Rule R8-64)*** for the proposed Alexis Solar LLC, 5.0 MW AC solar facility. A copy of this application has also been provided to Duke Energy Progress.

Sincerely,

A handwritten signature in red ink that reads "Michael Wallace".

Michael Wallace, PE.
Director of Project Management
27 Pearl Street FL 4
Portland ME 04101

1. Full Name, Business Address and Business Phone Number of Applicant:

Alexis Solar, LLC
4115 East Valley Auto Dr #204
Mesa AZ, 85206

Attn: Michael Wallace
207-899-1123
mwallace@catecapital.com

2. Type of Facility Owner:

The Facility owner is a corporation, Alexis Solar, LLC was incorporated in North Carolina on 12/12/2014. Michael Wallace is authorized to act as a corporate agent.

3. Nature of Generating Facility including the type and source of power or fuel.

The Generating Facility will consist of multiple solar photovoltaic arrays and (3) 1670 kW inverters with transformers. The facility will produce 5 MW AC (net). The source of power is Solar.

4. Address or Location of Generating Facility

3400 US 258 Kinston NC 28504

5. Land owner of Site

The land owner of the site is Mr. Reginald Stroud. The Applicant has entered into a long term lease with the owner, encompassing the expected life cycle of the facility.

6. Description of Equipment comprising the generating facility and the manner of their operation:

The Generating Facility will consist of multiple solar photovoltaic arrays and (3) 1670 kW inverters and transformers. The facility will produce 5 MW AC (net). The source of power is Solar. There will be no constructed buildings associated with the facility on site and the entire generating facility will be fenced in for security purposes. The facility will interconnect to Duke Energy Progress using a single point of common coupling through pre-mounted revenue meters, blade and fused disconnects.

7. The Projected Maximum Dependable Capacity In Megawatts

Solar Energy is an intermittent energy source, the maximum dependable capacity is 0 MW

8. The projected cost of the facility:

The projected cost is 15,000,000

9. The projected date the facility will come on line:

December 31st 2016

10. The Applicants general plan for sale of the electricity to be generated, including the utility to which the applicant plans to sell the electricity, any provisions for wheeling the electricity, arrangements for firm, non-firm or emergency generation, the service life of the project and the projected annual sales in kilowatt hours:

The applicant plans to sell the electricity to Duke Energy Progress, under the schedule PP-N(NC) Non Hydroelectric Qualifying Facilities Purchased Power. There are no provisions for wheeling the electricity, nor any arrangements for firm, non- firm or emergency generation. The projected lifespan of the equipment is twenty years. The projected annual sales in KWh are 7,915,000 kWh. The applicant plans to produce renewable energy certificates that are eligible for compliance with the states renewable energy and energy efficiency portfolio standard.

11. A complete list of all federal and state licenses, permits and exemptions required for construction and operation of the generating facility and a statement on whether each has been obtained or applied for. A copy of those that have been obtained should be filed with the application; a copy of those that have not been obtained at the time of the application should be filed with the commission as soon as they are obtained:

The applicant has received self-certification as a Qualifying Facility under the Federal Energy Regulatory Commission (QF15-331-000). The applicant has not yet filed for a North Carolina Erosion Control Permit, an electrical permit or Storm Water Permit which will be filed upon acceptance by the governing township or county the solar site will be installed in.

Note: Please complete the form, print it, have it signed, notarized, make 15 copies and send them to the Chief Clerk of the Commission. Be sure to print a copy for your records as you cannot save data onto the form, nor can you file it online. Be sure to attach additional information, such as maps, as required.

Application to Register a Renewable Energy Facility or New Renewable Energy Facility Pursuant to Rule R8-66

(Applicants should consult Rule R8-66 while completing this form in order to ensure they provide sufficient information.)

Facility name:	Alexis Solar, LLC
Full and correct name of the owner of the facility:	Alexis Solar, LLC
Business address:	4115 East Valley Auto Dr. #204 Mesa, AZ 85206
Electronic mailing address:	mwallace@catecapital.com
Telephone number:	207.899.1123
Owner's agent for purposes of this application, if applicable:	Not Applicable
Agent's business address:	Not Applicable
Agent's electronic mailing address:	Not Applicable
Agent's telephone number:	Not Applicable
The owner is: Alexis Solar, LLC	<input type="checkbox"/> Individual <input type="checkbox"/> Partnership <input checked="" type="checkbox"/> Corporation (including LLC)
If a corporation, state and date of incorporation.	State <u>North Carolina</u> Date <u>12.12.14</u>

<p>If a corporation that is incorporated outside of North Carolina, is it domesticated in North Carolina?</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>If a partnership, the name and business address of each general partner. (Add additional sheets if necessary.)</p>	<p>Not Applicable</p>
<p>Nature of the renewable energy facility:</p>	<p>Photovoltaic Solar Facility</p>
<p>1. Describe the facility, including its technology, and the source of its power and fuel(s). Thermal facilities should describe how its host uses the facility's thermal energy output. (Add additional sheets if necessary.)</p>	<p>The generating facility will consist of multiple solar photovoltaic arrays and three 1670 kW inverters with transformers. The facility will produce 5 MW AC (net). There will be no constructed buildings associated with the facility on-site. The entire generating facility will be fenced in for security and safety purposes. The facility will interconnect to Duke Energy Progress using a single point of common coupling through mounted revenue meters with blade and fused disconnects. The facility will use sunlight as the fuel source.</p>
<p>2. Whether it produces electricity, useful thermal energy, or both.</p>	<p>The Facility will produce only electricity.</p>
<p>3. Nameplate capacity in kW/MW (AC) and/or maximum Btu per hour for thermal facilities.</p>	<p>5 MW AC Nameplate rating.</p>

<p>The location of the facility set forth in terms of local highways, streets, rivers, streams, or other generally known local landmarks. Attach a map, such as a county road map, with the location indicated on the map.</p>	<p>3400 US 258 Kinston, NC 28504 (Lenoir County) - Please see attached map.</p>
<p>Site ownership:</p>	<p>Reginald Stroud</p>
<p>1. Is the site owner other than the facility owner? If yes, who is the site owner?</p>	<p>Reginald Stroud</p>
<p>2. What is the facility owner's legal interest in the site?</p>	<p>Long Term Lease</p>
<p>List the approvals that are required to build and/or operate this facility, and attach copies of those that have been obtained. Wind facilities with multiple turbines, where each turbine is licensed separately, may provide copies of approvals for one such turbine but shall add an attestation that approvals for all of the turbines are available for inspection.</p>	
<p>1. Federal permits and licenses:</p>	<p>FERC QF Self Certification</p>
<p>2. State permits and licenses:</p>	<p>Erosion control permit, Driveway permit, Storm water permit.</p>
<p>3. Exemptions required for construction and operation of the facility:</p>	<p>None</p>
<p>4. Statement of whether each has been obtained or applied for (attach copy of those that have been obtained with this application):</p>	<p>FERC QF Self-certification obtained QF15-331-000 Erosion Control Permit: Have not yet been applied for. Storm Water Permit: Have not yet been applied for. Driveway Permit: Have not yet been applied for.</p>

If the facility has been placed into service, on what date did the facility begin operating?	Not in Service
If the facility is not yet operating, on what date is the facility projected to be placed into service?	12/31/2016
If the facility is already operating, what is the amount of energy produced by the facility, net of station use, for the most recent 12-month or calendar-year period? Energy production data for a shorter time period is acceptable for facilities that have not yet operated for a full year.	NA
What entity does (or will) read the facility's energy production meter(s) for the purpose of issuing renewable energy certificates?	Duke Energy Progress
For thermal energy facilities, describe the method to be used to determine the facility's thermal energy production, in BTUs, that is eligible for REC issuance.	NA
Does the facility participate in a REC tracking system and if so, which one? If not, which tracking system will the facility participate in for the purpose of REC issuance?	NC-RETS

<p>If this facility has already been the subject of a proceeding or submittal before the Commission, such as a Report of Proposed Construction or a Certificate of Public Convenience and Necessity, please provide the Commission Docket Number, if available.</p>	<p>NA</p>
---	-----------

The owner of the renewable energy facility shall provide the following attestations, signed and notarized:

1. Yes No I certify that the facility is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources.

2. Yes No I certify that the facility satisfies the requirements of G.S. 62-133.8(a)(5) or (7) as a:
 - renewable energy facility, or
 - new renewable energy facility,
 and that the facility will be operated as a:
 - renewable energy facility, or
 - new renewable energy facility.

3. Yes No I certify that 1) my organization is not simultaneously under contract with NC GreenPower to sell our RECs emanating from the same electricity production being tracked in NC-RETS; and 2) any renewable energy certificates (whether or not bundled with electric power) sold to an electric power supplier to comply with G.S. 62-133.8 have not, and will not, be remarketed or otherwise resold for any other purpose, including another renewable energy portfolio standard or voluntary purchase of renewable energy certificates in North Carolina (such as NC GreenPower) or any other state or country, and that the electric power associated with the certificates will not be offered or sold with any representation that the power is bundled with renewable energy certificates.

4. Yes No I certify that I consent to the auditing of my organization's books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers, and agree to provide the Public Staff and the Commission access to our books and records, wherever they are located, and to the facility.

5. Yes No I certify that the information provided is true and correct for all years that the facility has earned RECs for compliance with G.S. 62-133.8.

6. Yes No I certify that I am the owner of the renewable energy facility or am duly authorized to act on behalf of the owner for the purpose of this filing.
