Matt Kennedy
VP Environment - Western Region
Innergex Renewable Energy Inc.
200 – 666 Burrard St., Park Place
Vancouver BC V6C 2X8

Dear Mr. Kennedy:

Thank you for your letter dated May 27, 2014, requesting that the proposed Statlu Creek Waterpower Project (proposed Project) be withdrawn from the provincial environmental assessment (EA) process. The Environmental Assessment Office (EAO) is in agreement with your request and will reflect the “withdrawn status” on our website. Should Innergex Renewable Energy Inc. decide to renew the development of the proposed Project, a new Project Description would need to be prepared for EAO to determine the need for an EA under the *Environmental Assessment Act*.

EAO intends to post this letter, with your letter to its website and to inform the Working Group and First Nations of the status of the EA for the proposed Project.

If you have any questions, please contact me by email at Josh.Handysides@gov.bc.ca or by phone at 250-356-7483.

Yours truly,

A handwritten signature in blue ink, appearing to read "J. Handysides".

Josh Handysides
Project Assessment Manager
