

Bechtel is Awarded Contract to Build New Combined-Cycle Facility in Carroll County, Ohio

Award Reflects Bechtel's Track Record Successfully Delivering Combined-Cycle Power Plants

bechtel.com

RESTON, Va., April 8, 2015 /PRNewswire-USNewswire/ -- Bechtel has been selected by Carroll County Energy LLC, an affiliate of Advanced Power, to build a 700 megawatt natural gas-fired combined-cycle generating facility in Carroll County, Ohio. Bechtel will be responsible for engineering, procurement, construction and start-up of the Carroll County Energy Facility, which will use advanced emissions-control technology and will be one of the cleanest and most efficient plants in the nation.

"We are proud to be working with Carroll County Energy LLC to help deliver this new facility. We have extensive experience successfully delivering combined-cycle facilities and

we look forward to delivering a quality facility that will meet the growing energy needs of the region," said Scott Osborne, Operations Manager for Power, Bechtel.

Bechtel Enterprises partnered with Advanced Power in the development of the project.

"This is an important project that will offer a significant stimulus for the economy of Carroll County. We look forward to continuing our collaborative working relationship with Bechtel as we move from the development phase into construction," said Tom Spang, CEO of Advanced Power.

Bechtel has received full notice to proceed and construction work will begin immediately. The plant is scheduled to open for commercial operation in 2017. Once completed, the facility will generate sufficient electricity to power more than 740,000 homes in the region.

Bechtel is a global leader in the design and execution of complex power projects and has been at the forefront of the power industry for more than 60 years. The company has successfully completed combined-cycle projects around the world including the United States, United Kingdom, Netherlands, Brazil, Taiwan, Egypt, India, Turkey, and Mexico.

About Bechtel:

Bechtel is among the most respected engineering, project management, and construction companies in the world. We stand apart for our ability to get the job done right—no matter how big, how complex, or how remote. Bechtel operates through four global business units that specialize in infrastructure; mining and metals; nuclear, security and environmental; and oil, gas, and chemicals. Since its founding in 1898, Bechtel has worked on more than 25,000 projects in 160 countries on all seven continents. Today, our 53,000 colleagues team with customers, partners, and suppliers on diverse projects in nearly 40 countries. www.bechtel.com

About Carroll County Energy LLC:

Carroll County Energy LLC is a subsidiary of Advanced Power AG, a leading energy development company with offices in Boston and London. Advanced Power's management has a proven track record of developing more than 9,400 megawatts of power generation projects worldwide.
