Reference: Amended Large Generator Interconnection Agreement

Dear Mr. Cuillier:

On May 23, 2014, Southern California Edison Company (SoCal Edison) submitted an amended Large Generator Interconnection Agreement (LGIA) among SoCal Edison, Solar Star XIX, LLC, and the California Independent System Operator Corporation (CAISO). As a result of the downsizing of the Antelope Valley Solar PV 1 Project from 325 MW to 310 MW, the amended LGIA reflects, among other things, modifications to CAISO's *pro forma* LGIA to conform with Appendix HH of CAISO's tariff. The amended LGIA is accepted for filing, effective July 23, 2014, as requested.

The filing was noticed on May 23, 2014, with comments, protests, or interventions due on or before June 13, 2014. No protests or adverse comments were filed. Notices of intervention and unopposed timely filed motions to intervene are granted pursuant to the operation of Rule 214 of the Commission's Rules of Practice and Procedure (18 C.F.R. § 385.214). Any opposed or untimely filed motion to intervene is governed by the provisions of Rule 214.

This acceptance for filing shall not be construed as constituting approval of the referenced filing or of any rate, charge, classification or any rule, regulation or practice affecting such rate or service contained in your filed documents; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation associated therewith; and such acceptance is without prejudice to any findings or orders which have been or any which may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against SoCal Edison.

This action is taken pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West under 18 C.F.R. § 375.307. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 C.F.R. § 385.713.

Sincerely,

Steve P. Rodgers, Director
Division of Electric Power
Regulation – West
