

151 FERC ¶ 62,125
UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Archon Energy 1, Inc.

Project No. 14571-000

ORDER CANCELLING PRELIMINARY PERMIT

(Issued May 20, 2015)

On August 1, 2014, Archon Energy 1, Inc. was issued a preliminary permit to study the feasibility of the proposed Stony Creek Hydropower Project No. 14571.¹ Article 4 of the preliminary permit requires that the permittee submit a progress report at the close of each six-month period from the effective date of the permit. The permittee was notified on April 14, 2015, that its first progress report due on January 31, 2015, was overdue, and therefore, that the permit would likely be cancelled in no less than 30 days. The permittee did not file a response; therefore, the preliminary permit is hereby cancelled.

The Director orders:

(A) The preliminary permit is cancelled effective the close of business on June 20, 2015. But, if the Commission is closed on this day, then the permit is cancelled effective the close of business on the next day in which the Commission is open, 18 C.F.R. § 385.2007(a)(2) (2014). No applications for this site may be submitted until after the cancellation is effective.

(B) This order constitutes final agency action. Any party may file a request for rehearing of this order within 30 days from the date of its issuance, as provided in section 313(a) of the FPA, 16 U.S.C. § 825f (2012), and section 385.713 of the Commission's regulations, 18 C.F.R. § 385.713 (2014).

Vince Yearick
Director
Division of Hydropower Licensing
