Attention: Jeanine S. Watson, Esq.

Reference: Interconnection Service Agreement

Dear Ms. Watson:

On March 18, 2015, PJM Interconnection, L.L.C. (PJM) filed an executed nonconforming interconnection service agreement (ISA) among PJM, Mattawoman Energy, LLC (Mattawoman Energy), and Potomac Electric Power Company (Potomac Electric),¹ which facilitates the interconnection to the PJM transmission system the 894 MW Mattawoman Energy Facility located on Brandywine Road in Prince George's County, Maryland. The generating facility consists of a natural gas fueled combined cycle arranged in a two combustion turbine and one steam turbine configuration, with capacity interconnection rights of 744 MW, and incremental auction revenue rights in quantities to be determined pursuant to the timeframes and procedures set forth in Section 231 of the PJM Tariff. You state that the Mattawoman Energy ISA is a nonconforming agreement because the ME ISA contains non-standard terms and conditions. Specifically, you also state that Schedule E contains a description regarding administrative, metering, telemetering, and operating and maintenance charges that Mattawoman Energy will pay Potomac Energy for operation, maintenance and repair relative to the interconnection. You further state that there is an attachment facilities charge of \$22,600,000 and a network upgrades charge of \$28,690,000 associated with the Mattawoman Energy Facility.
