Dear Mr. Naeve:

On April 12, 2013, you filed an application under section 203 of the Federal Power Act.<sup>1</sup> In this application, Florida Power & Light Co. (Applicant) requests approval of a transaction in which Applicant would acquire certain electric generation, transmission and distribution facilities, and associated liabilities of the City of Vero Beach, Florida.

Section 33.2 of the Code of Federal Regulations provides, in pertinent part, that an application must include the following:

A statement explaining the facts relied upon to demonstrate that the proposed transaction is consistent with the public interest. The applicant must include a general explanation of the effect of the transaction on competition, rates and regulation of the applicant by the Commission and state commissions with jurisdiction over any party to the transaction.<sup>2</sup>

We seek additional information on the impact of the transaction on rates. In particular, please explain the impact of the \$111.5 million purchase price of the Vero Beach facilities (i.e., the "Acquired Assets") on wholesale requirements and/or wholesale transmission customers. Please provide supporting documentation as necessary.
