Reference: Market-Based Rate Authorization

Dear Mr. Birgisson:

On August 29, 2016, you filed on behalf of Oliver Wind III, LLC (Oliver Wind) an application for market-based rate authority with an accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity, and ancillary services at market-based rates.¹ Oliver Wind requests waivers commonly granted to similar market-based rate applicants.

Your filing was noticed on August 30, 2016, with comments, protests or interventions due on or before September 19, 2016. None was filed.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West, under 18 C.F.R. § 375.307, your submittal filed in the referenced docket is accepted for filing, effective November 1, 2016, as requested.² Based on your

¹ Oliver Wind requests authorization to sell ancillary services in the markets administered by PJM Interconnection, L.L.C., New York Independent System Operator, Inc., ISO New England Inc., California Independent System Operator Corp., Midcontinent Independent System Operator, Inc. (MISO), and Southwest Power Pool (SPP), Inc. Oliver Wind also requests authorization to engage in the sale of certain ancillary services as a third-party provider in other markets.

² We note that Oliver Wind is not being granted authority to make third-party sales of operating reserves to a public utility that is purchasing ancillary services to satisfy its

representations, Oliver Wind meets the criteria for a Category 2 seller in the Central region and a Category 1 seller in the Northeast, Southeast, SPP, Southwest, and Northwest regions and is so designated.³

You state that Oliver Wind will own, control, and operate a 99.3 megawatt wind generating facility located in Oliver County, North Dakota within the MISO market. You add that Oliver Wind is wholly owned by ESI Energy, LLC, and is affiliated with several entities that own generation facilities in the MISO market. You state that certain affiliates of Oliver Wind have open access transmission tariffs (OATT) on file with the Commission.⁴ You add that Oliver Wind and some of its affiliates own interconnection

own open access transmission tariff requirements to offer ancillary services to its own customers. If Oliver Wind seeks such authority, it must make the required showing and receive Commission authorization prior to making such sales. *See Third-Party Provision of Ancillary Services; Accounting and Financial Reporting for New Electric Storage Technologies*, Order No. 784, FERC Stats. & Regs. ¶ 31,349, at PP 200-202 (2013), *order on clarification*, Order No. 784-A, 146 FERC ¶ 61,114 (2014). *See also Third-Party Provision of Primary Frequency Response Service*, Order No. 819, FERC Stats. & Regs. ¶ 31,375 at P 70 (2015).

facilities that qualify for the blanket OATT waiver under Order No. 807.⁵ Therefore, Oliver Wind and its affiliates have mitigated any transmission market power. Further, you affirmatively state that Oliver Wind and its affiliates have not erected barriers to entry and will not erect barriers to entry into the relevant market.

You state that Oliver Wind meets all of the Category 1 seller criteria in the Northeast, SPP, Northwest, Southwest, and Southeast regions because Oliver Wind does not own or control any generation or transmission facilities in these regions, and Oliver Wind does not raise any other vertical market power issues.

Market-Based Rate Authorization

The Commission allows power sales at market-based rates if the seller and its affiliates do not have, or have adequately mitigated, horizontal and vertical market power.⁶

Oliver Wind has prepared the pivotal supplier and wholesale market share screens for the MISO market consistent with the requirements of Order Nos. 816 and 697.

Oliver Wind's horizontal market power screens have been reviewed, and Oliver Wind passes both the pivotal supplier and wholesale market share screens in that market. Based on your representations, Oliver Wind's submittal⁷ satisfies the Commission's requirements for market-based rate authority regarding horizontal market power.

Based on your representations, Oliver Wind's submittal also satisfies the Commission's requirements for market-based rates regarding vertical market power.

Oliver Wind's request for waiver of Subparts B and C of Part 35 of the Commission's regulations requiring the filing of cost-of-service information, except for sections 35.12(a), 35.13(b), 35.15 and 35.16 is granted. Oliver Wind's request for waiver of Part 41 and Part 141 of the Commission's regulations concerning accounting and reporting requirements is granted with the exception of 18 C.F.R. §§ 141.14 and 141.15.⁸ Oliver Wind's request for waiver of Part 101 of the Commission's regulations is hereby granted, with the exception that waiver of the provisions of Part 101 that apply to hydropower licensees is not granted with respect to licensed hydropower projects.⁹ Notwithstanding the waiver of the accounting and reporting requirements here, Oliver Wind is expected to keep its accounting records in accordance with generally accepted accounting principles.

Oliver Wind requests blanket authorization under Part 34 of the Commission's regulations for all future issuances of securities and assumptions of liability. A separate notice was published in the Federal Register establishing a period during which protests could be filed. None was filed. Oliver Wind is authorized to issue securities and assume obligations or liabilities as guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of Oliver Wind, compatible with the public interest, and reasonably necessary or appropriate for such purposes.¹⁰

Oliver Wind must file an Electric Quarterly Report (EQR) with the Commission, consistent with Order Nos. 2001¹¹ and 768.¹² Oliver Wind must file EQRs electronically
