Project No. 14239-000  
Mona North Pumped Storage Project  
Mona North Pumped Storage Project, LLC

Nathan Sandvig  
517 SW 4th Avenue, Suite 300  
Portland, OR 97204

**RE: Overdue Progress Report**

Dear Mr. Sandvig:

Article 4 of the preliminary permit<sup>1</sup> for the above referenced project requires submittal of a progress report every six months. According to our records, the first progress report due August 1, 2013, has not been filed.

The failure to timely file the first progress report warrants the cancellation of the preliminary permit. This letter constitutes notice under section 5 of the Federal Power Act of the probable cancellation of the preliminary permit no less than 30 days from the date of this letter. If you have any questions, please contact Mary Greene at (202) 502-8865 or [Mary.Greene@ferc.gov](mailto:Mary.Greene@ferc.gov).

Sincerely,

Timothy J. Welch, Chief  
West Branch  
Division of Hydropower Licensing
