Reference: Market-Based Rate Authorization

Dear Mr. Rustum:

On August 31, 2016, you filed on behalf of Grand View PV Solar Two LLC (Grand View) an application for market-based rate authority with an accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity, and ancillary services at market-based rates.¹ Grand View requests waivers commonly granted to similar market-based rate applicants.

Your filing was noticed on August 31, 2016, with comments, protests or interventions due on or before September 21, 2016. None was filed.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West, under 18 C.F.R. § 375.307, your submittal filed in the referenced docket is accepted for filing, effective October 3, 2016, as requested.² Based on your

¹ Grand View requests authorization to sell ancillary services in the markets administered by PJM Interconnection, L.L.C., New York Independent System Operator, Inc., ISO New England Inc., California Independent System Operator Corp., Midcontinent Independent System Operator, Inc., and Southwest Power Pool, Inc. Grand View also requests authorization to engage in the sale of certain ancillary services as a third-party provider in other markets.

² We note that Grand View is not being granted authority to make third-party sales of operating reserves to a public utility that is purchasing ancillary services to satisfy its

representations, Grand View meets the criteria for a Category 1 seller in all regions and is so designated.³

You state that Grand View owns an 80 megawatt ground-mounted photovoltaic solar energy facility located near Mountain Home, Idaho within the Idaho Power Company (Idaho Power) balancing authority area. You add that Grand View will be owned by CRE-Grandview Idaho LLC and is not affiliated with any generation facilities in the Idaho Power balancing authority area. You state that Grand View and its affiliates own limited and discrete interconnection facilities that qualify for the blanket Open Access Transmission Tariff (OATT) waiver under 18 C.F.R. § 35.28(d)(2).⁴ Therefore, Grand View and its affiliates have mitigated any transmission market power. Further, you affirmatively state that Grand View and its affiliates have not erected barriers to entry and will not erect barriers to entry into the relevant market.

own open access transmission tariff requirements to offer ancillary services to its own customers. If Grand View seeks such authority, it must make the required showing and receive Commission authorization prior to making such sales. *See Third-Party Provision of Ancillary Services; Accounting and Financial Reporting for New Electric Storage Technologies*, Order No. 784, FERC Stats. & Regs. ¶ 31,349, at PP 200-202 (2013), *order on clarification*, Order No. 784-A, 146 FERC ¶ 61,114 (2014). *See also Third-Party Provision of Primary Frequency Response Service*, Order No. 819, FERC Stats. & Regs. ¶ 31,375 at P 70 (2015).

You represent that Grand View meets the criteria for a Category 1 seller in all regions because it owns less than 500 MW in aggregate per region; it does not own, operate or control transmission facilities other than limited facilities and equipment necessary to connect individual generating facilities to the transmission grid; it is not affiliated with any entity that owns, operates or controls transmission facilities; it is not affiliated with a franchised public utility; and it does not raise any other vertical market power concerns.

Market-Based Rate Authorization

The Commission allows power sales at market-based rates if the seller and its affiliates do not have, or have adequately mitigated, horizontal and vertical market power.⁵

You state that all of Grand View's generation capacity within the Idaho Power balancing authority area is fully committed under long-term power purchase agreement and thus it does not have any uncommitted capacity in the Idaho Power balancing authority area. Based on your representations, Grand View's submittal⁶ satisfies the Commission's requirements for market-based rate authority regarding horizontal market power.

Based on your representations, Grand View's submittal also satisfies the Commission's requirements for market-based rates regarding vertical market power.

Grand View's request for waiver of Subparts B and C of Part 35 of the Commission's regulations requiring the filing of cost-of-service information, except for sections 35.12(a), 35.13(b), 35.15 and 35.16 is granted. Grand View's request for waiver of Part 41 and Part 141 of the Commission's regulations concerning accounting and reporting requirements is granted with the exception of 18 C.F.R. §§ 141.14 and 141.15.⁷ Grand View's request for waiver of Part 101 of the Commission's regulations is hereby granted, with the exception that waiver of the provisions of Part 101 that apply to hydropower licensees is not granted with respect to licensed hydropower projects.⁸

Notwithstanding the waiver of the accounting and reporting requirements here, Grand View is expected to keep its accounting records in accordance with generally accepted accounting principles.

Grand View requests blanket authorization under Part 34 of the Commission's regulations for all future issuances of securities and assumptions of liability. A separate notice was published in the Federal Register establishing a period during which protests could be filed. None was filed. Grand View is authorized to issue securities and assume obligations or liabilities as guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of Grand View, compatible with the public interest, and reasonably necessary or appropriate for such purposes.⁹

Grand View must file an Electric Quarterly Report (EQR) with the Commission, consistent with Order Nos. 2001¹⁰ and 768.¹¹ Grand View must file EQRs electronically with the Commission consistent with the procedures set forth in Order No. 770.¹² Grand
