

Heritage Wind, LLC

Orleans County, New York

Honorable Kathleen H. Burgess
Secretary of the Commission
New York State Public Service Commission
Empire State Plaza
Agency Building 3
Albany, NY 12223-1350

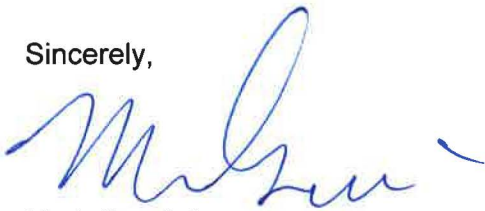

Dear Ms. Burgess

The Heritage Wind farm (the "Project") is a proposed 200.1 MW wind energy project, located in the Town of Barre, Orleans County, New York. The Project is owned and developed by Apex Clean Energy Holdings, LLC ("Apex"). The Project's interconnection request has been submitted for the existing National Grid Shelby-Sweden 115kv power line.

Per Article 10 of the Public Service Law, the New York State Board on Electric Generating Siting and the Environment (Siting Board) requires applicants proposing to construct a major electric generating facility to submit a Public Involvement Program (PIP) plan for review by the Department of Public Services (DPS) at least 150 days prior to the filing of a Preliminary Scoping Statement (PSS) (16 NYCRR §1000.4). Attached is the preliminary PIP plan for the Heritage Wind project for review by the siting board pursuant to Section 1000.4 of the Article 10 regulations.

We look forward to working with the Siting Board to encourage public participation in the process and to obtain stakeholder input throughout the development process. If you have any additional questions, please feel free to contact us at (585) 563-5137 or via email at info@heritagewindpower.com.

Sincerely,

Mark Goodwin
President and CEO
Apex Clean Energy
