REFERENCE: Civil Works Contract
PROJECT: Statlu Waterpower Project - **EAO File – 30050-20/SCWP1-05-06**
SUBJECT: Request for Removal from Environmental Assessment Process

Dear Mr. Caul,

Following on your recent letter of April 15, 2014, Innergex Renewable Energy Inc. (Innergex) wishes to cancel the active assessment project for “Statlu Waterpower” currently open at the BC Environmental Assessment Office (EAO). Innergex does not intend to submit a formal Environmental Assessment Application to the EAO in the near-term.

Innergex continues to investigate the potential for a feasible hydroelectric project on Statlu Creek under a Standard Investigative Licence (#242182) that Innergex holds under the BC *Land Act*.

For our records, Innergex respectfully requests confirmation from the EAO when the Statlu EA file has been closed.

Please contact the undersigned should you have any questions.

Sincerely,

Matt Kennedy, M.Sc., R.P.Bio.
VP Environment – Western Region
