Dear Secretary Bose:

Pursuant to section 205 of the Federal Power Act ("FPA"), 16 U.S.C. § 824d, and section 35.12 of the Federal Energy Regulatory Commission's ("FERC" or "Commission") regulations, 18 C.F.R. § 35.12 (2011), the **Midcontinent Independent System Operator, Inc.** ("MISO") hereby respectfully submits a Generator Interconnection Agreement ("Interconnection Agreement") among **DTE Electric Company** ("Interconnection Customer" with a Generating Facility), **International Transmission Company, dba ITCTransmission**, a corporation organized and existing under the laws of the State of Michigan ("Transmission Owner" or "Transmission Operator") and **MISO** ("Transmission Provider"). MISO has designated the Interconnection Agreement as Original Service Agreement No. 2524 under MISO's FERC Electric Tariff, Fifth Revised Vol. No. 1 ("Tariff"). MISO has designated this project as Project No. J235 in its interconnection queue.

II. DOCUMENTS SUBMITTED IN THIS FILING

The documents being submitted with this filing include this transmittal letter and a public and non-public version of the Interconnection Agreement in accordance with the parties' designation of the diagrams contained in this filing as CEII under the Commission's rules. 18 C.F.R. §§ 388.112 & 388.113 (2011). Pursuant to the Commission's Notice Announcing New Combined Notice of Filings, issued on May 13, 2005, and the Commission's subsequent listing on its website, no form of notice is required under 18 C.F.R. § 35.8 (2011).¹ The Parties have designated diagrams of their interconnection in Exhibits A2, A3 and A4 as CEII.

MISO hereby requests confidential treatment of the CEII contained in Exhibits A2, A3 and A4 of the non-public version of the Interconnection Agreement enclosed pursuant to 18 C.F.R. § 388.12. The CEII has been marked according to the Commission's instructions.

The Parties assert that Exhibits A2, A3 and A4 qualify as CEII pursuant to 18 C.F.R. § 388.113(c)(1) for the following reasons: the diagrams attached to the Interconnection Agreement are system maps that provide specific detailed design information about existing critical transmission system infrastructure. Members of the public can obtain access to the Exhibits by complying with the Commission's procedures per 18 C.F.R. § 388.113.

Accordingly, MISO requests confidential treatment of the non-public version of this filing as CEII pursuant to 18 C.F.R. § 388.12. MISO submits a non-public version of this agreement in a separate contemporaneous filing.

MISO requests that the June 15, 2013 date be used to provide certainty to the Parties as to the status of the agreement.
