

## NOTICE of AIR POLLUTION COMMENT PERIOD and PUBLIC HEARING

The Michigan Department of Environmental Quality (MDEQ) is holding a public comment period from February 4, 2015, until March 11, 2015, and a public hearing on March 11, 2015, for DTE Electric Company (DTE). DTE is proposing new sulfur dioxide (SO<sub>2</sub>) limits in support of the 1-hour SO<sub>2</sub> National Ambient Air Quality Standard for both the Trenton Channel Power Plant and the River Rouge Power Plant. The facilities are located at 4695 West Jefferson Avenue, Trenton, Michigan and 1 Belanger Park, River Rouge, Michigan, respectively. The public comment period and hearing are to allow all interested parties the opportunity to comment on the MDEQ's proposed conditional approval of the Permit to Install (PTI) applications.

Additionally, the new SO<sub>2</sub> limits for Trenton Channel and River Rouge power plants will require revisions to Renewable Operating Permit (ROP) No. 199600204 and MI-ROP-B2810-2012 (SRN B2811 and B2810), respectively. This public comment period meets the public participation requirements for a future administrative amendment to the ROP.

Copies of the MDEQ staff's analysis and proposed permit conditions are available for inspection at the following locations, or you may request a copy be mailed to you by calling 517-284-6793. Please reference Permit to Install No. 125-11B (Trenton Channel) and/or 40-08G (River Rouge).
