

REPLACE SHERCO 1 AND 2 WITH CLEAN ENERGY

PUC Docket Number: E002/RP-13-368- Retire Sherco

Minnesota Public Utilities Commission, Minnesota Public Utilities Commission,

The majority of Minnesota's electricity still comes from burning coal, which pollutes our air and water and contributes to climate disruption.

I call on the P.U.C. to require Xcel to submit a plan for replacing the Sherco coal plant with energy savings from efficiency and clean energy, including Minnesota wind and solar power.

Sincerely,

Abi A

REPLACE SHERCO 1 AND 2 WITH CLEAN ENERGY

PUC Docket Number: E002/RP-13-368- Retire Sherco

Minnesota Public Utilities Commission, Minnesota Public Utilities Commission,

The majority of Minnesota's electricity still comes from burning coal, which pollutes our air and water and contributes to climate disruption.

I call on the P.U.C. to require Xcel to submit a plan for replacing the Sherco coal plant with energy savings from efficiency and clean energy, including Minnesota wind and solar power.

Sincerely,

REPLACE SHERCO 1 AND 2 WITH CLEAN ENERGY

PUC Docket Number: E002/RP-13-368- Retire Sherco

Minnesota Public Utilities Commission, Minnesota Public Utilities Commission,

The majority of Minnesota's electricity still comes from burning coal, which pollutes our air and water and contributes to climate disruption.

I call on the P.U.C. to require Xcel to submit a plan for replacing the Sherco coal plant with energy savings from efficiency and clean energy, including Minnesota wind and solar power.

Sincerely,

REPLACE SHERCO 1 AND 2 WITH CLEAN ENERGY

PUC Docket Number: E002/RP-13-368- Retire Sherco

Minnesota Public Utilities Commission, Minnesota Public Utilities Commission,

The majority of Minnesota's electricity still comes from burning coal, which pollutes our air and water and contributes to climate disruption.

I call on the P.U.C. to require Xcel to submit a plan for replacing the Sherco coal plant with energy savings from efficiency and clean energy, including Minnesota wind and solar power.

Hello Van Bru
136 Pickard Street
New Haven, CT 6520

REPLACE SHERCO 1 AND 2 WITH CLEAN ENERGY

PUC Docket Number: E002/RP-13-368- Retire Sherco

Minnesota Public Utilities Commission, Minnesota Public Utilities Commission,

The majority of Minnesota's electricity still comes from burning coal, which pollutes our air and water and contributes to climate disruption.

I call on the P.U.C. to require Xcel to submit a plan for replacing the Sherco coal plant with energy savings from efficiency and clean energy, including Minnesota wind and solar power.

Sincerely,

Sunny Vanbrocklin
