BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of	
Application of Verona Solar, LLC, for a)
Certificate of Public Convenience and)
Necessity to Construct a 5-MW Solar)
Facility in Harnett County, North Carolina)
	ORDER ISSUING CERTIFICATE
	AND ACCEPTING REGISTRATION
	OF NEW RENEWABLE ENERGY
	FACILITY

BY THE COMMISSION: On July 27, 2016, Verona Solar, LLC (Applicant), filed an application seeking a certificate of public convenience and necessity pursuant to G.S. 62-110.1(a) for construction of a 5-MW_{AC} solar generating facility to be located north of NC Highway 55, east of the intersection with Mabry Road, and northwest of the intersection with Guy Road, Angier, Harnett County, North Carolina. The Applicant plans to sell the electricity to Duke Energy Progress, LLC (DEP).

Contemporaneously with the application, the Applicant filed a registration statement for a new renewable energy facility. The registration statement included certified attestations that: (1) the facility is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; (2) the facility will be operated as a new renewable energy facility; (3) the Applicant will not remarket or otherwise resell any renewable energy certificates sold to an electric power supplier to comply with G.S. 62-133.8; and (4) the Applicant will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On August 1, 2016, the Commission issued an Order Requiring Publication of Notice.

On August 2, 2016, the Applicant filed a certificate of service stating that a copy of the Application and the related public notice were provided to DEP on August 2, 2016.

On September 9, 2016, the State Clearinghouse filed comments. Because of the nature of the comments, the cover letter indicated that no further State Clearinghouse review action by the Commission was required for compliance with the North Carolina Environmental Policy Act.

On September 21, 2016, the Applicant filed an affidavit of publication from The Daily Record (Dunn, North Carolina) stating that the publication of notice was completed on August 24, 2016. No complaints have been received.

The Public Staff presented this matter to the Commission at its Regular Staff Conference on October 3, 2016. The Public Staff stated that it had reviewed the application and determined it to be in compliance with the requirements of G.S. 62-110.1(a) and Commission Rule R8-64. The Public Staff further stated that the registration statement contains the certified attestations required by Commission Rule R8-66(b). Therefore, the Public Staff recommended approval of the certificate and registration for the facility.

After careful consideration, the Commission finds good cause to approve the application and issue the attached certificate for the proposed solar photovoltaic electric generating facility. The Commission further finds good cause, based upon the foregoing and the entire record in this proceeding, to accept registration of the facility as a new renewable energy facility. The Applicant shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year and will be required to participate in the NC-RETS REC tracking system (<http://www.ncrets.org>) in order to facilitate the issuance of RECs.

IT IS, THEREFORE, ORDERED as follows:

1. That the application of Verona Solar, LLC, for a certificate of public convenience and necessity shall be, and is hereby, approved.
2. That Appendix A shall constitute the certificate of public convenience and necessity issued to Verona Solar, LLC, for the 5-MW_{AC} solar generating facility to be located north of NC Highway 55, east of the intersection with Mabry Road, and northwest of the intersection with Guy Road, Angier, Harnett County, North Carolina.
3. That the registration statement filed by Verona Solar, LLC, for its solar photovoltaic facility located in Harnett County, North Carolina, as a new renewable energy facility, shall be, and is hereby, accepted.
4. That Verona Solar, LLC, shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year.

ISSUED BY ORDER OF THE COMMISSION.

This the 4th day of October, 2016.
