BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of Application by Franklinton Solar LLC, for a Certificate of Public Convenience and Necessity to Construct a 5-MW Solar Facility in Franklin County, North Carolina, and Registration Statement))))))	ORDER ISSUING CERTIFICATE AND ACCEPTING REGISTRATION OF NEW RENEWABLE ENERGY FACILITY
---	----------------------------	--

BY THE COMMISSION: On June 18, 2014, Franklinton Solar LLC (Applicant), filed an application with the Commission seeking a certificate of public convenience and necessity pursuant to G.S. 62-110.1 for construction of a 5-MW_{AC} solar photovoltaic electric generating facility to be located in Franklin County at 25 Peach Orchard Road, Franklinton, North Carolina. The Applicant plans to sell the electricity generated by this facility to Duke Energy Progress, Inc. (DEP).

Contemporaneously with the application, the Applicant filed a registration statement for a new renewable energy facility. The registration statement included certified attestations that (1) the facility is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; (2) the facility will be operated as a new renewable energy facility; (3) the Applicant will not remarket or otherwise resell any renewable energy certificates (RECs) sold to an electric power supplier to comply with G.S. 62-133.8; and (4) the Applicant will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On June 25, 2014, the Commission issued an Order Requiring Publication of Notice, which required the Applicant to (1) publish notice of the application as required by G.S. 62-82(a) and file an affidavit of publication with the Commission, (2) mail a copy of the application and notice, no later than the first date that such notice is published, to the electric utility to which the Applicant plans to sell and distribute the electricity, and (3) file a certificate of service of the mailing to the utility. The Order also specified that if a complaint was received within 10 days after the last date of the publication of the notice, the Commission would schedule a public hearing to determine whether a certificate of public convenience and necessity should be awarded. The Order further specified that if the Commission received no complaints within the time specified above and if the Commission did not order a hearing upon its own initiative, it would enter an order awarding the certificate.

On July 31, 2014, the State Clearinghouse filed comments. Because of the nature of the comments, the cover letter indicated that no further State Clearinghouse review action by the Commission was required for compliance with the North Carolina Environmental Policy Act.

On August 14, 2014, the Applicant filed a certificate of service stating that the public notice and a copy of the application were provided to DEP.

On September 12, 2014, the Applicant filed an affidavit of publication from The Franklin Times stating that the publication of notice was completed on September 4, 2014. No complaints have been received.

The Public Staff presented this matter to the Commission at its Regular Staff Conference on September 22, 2014. The Public Staff recommended that the Commission approve the application, issue the requested certificate, and accept the registration statement.

After careful consideration, the Commission finds good cause to approve the application and issue the attached certificate of public convenience and necessity for the proposed solar photovoltaic electric generating facility. The Commission further finds good cause, based upon the foregoing and the entire record in this proceeding, to accept registration of the facility as a new renewable energy facility. The Applicant should annually file the information required by Commission Rule R8-66 on or before April 1 of each year and will be required to participate in the NC-RETS REC tracking system (<http://www.ncrets.org>) in order to facilitate the issuance of RECs.

IT IS, THEREFORE, ORDERED as follows:

1. That the application filed by Franklinton Solar LLC, for a certificate of public convenience and necessity shall be, and is hereby, approved.
2. That Appendix A shall constitute the certificate of public convenience and necessity issued to Franklinton Solar LLC, for the 5-MW_{AC} solar photovoltaic electric generating facility located in Franklin County at 25 Peach Orchard Road, Franklinton, North Carolina.
3. That the registration statement filed by Franklinton Solar LLC, for its solar photovoltaic facility located in Franklin County, North Carolina, as a new renewable energy facility shall be, and is hereby, accepted.

4. That Franklinton Solar LLC, annually file the information required by Commission Rule R8-66 on or before April 1 of each year.

ISSUED BY ORDER OF THE COMMISSION.

This the 23rd day of September, 2014.
