UTILITIES COMMISSION
RALEIGH**

DOCKET NO. SP-3701, SUB 1

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of		
Application of Mount Olive I, LLC, for a)	ORDER ISSUING CERTIFICATE
Certificate of Public Convenience and)	AND ACCEPTING REGISTRATION
Necessity to Construct a 4.919-MW Solar)	OF NEW RENEWABLE ENERGY
Facility in Wilson County, North Carolina)	FACILITY

BY THE COMMISSION: On June 26, 2014, Mount Olive I, LLC (Applicant), filed an application with the Commission seeking a certificate of public convenience and necessity pursuant to G.S. 62-110.1 for construction of a 4.919-MW_{AC} solar photovoltaic electric generating facility to be located in Wilson County at 6680 Ward Blvd, Wilson, North Carolina. The Applicant plans to sell the electricity generated by this facility to ElectriCities of North Carolina, Inc. (ElectriCities).

On July 8, 2014, the Commission issued an Order Requiring Publication of Notice, which required the Applicant to (1) publish notice of the application as required by G.S. 62-82(a) and file an affidavit of publication with the Commission, (2) mail a copy of the application and notice, no later than the first date that such notice is published, to the electric utility to which the Applicant plans to sell and distribute the electricity, and (3) file a certificate of service of the mailing to the utility. The Order also specified that if a complaint was received within 10 days after the last date of the publication of the notice, the Commission would schedule a public hearing to determine whether a certificate of public convenience and necessity should be awarded. The Order further specified that if the Commission received no complaints within the time specified above and if the Commission did not order a hearing upon its own initiative, it would enter an order awarding the certificate.

On August 15, 2014, the Applicant filed an affidavit of publication from the Wilson Times stating that the publication of notice was completed on August 1, 2014. No complaints have been received.

On August 21, 2014, the State Clearinghouse filed comments. Because of the nature of the comments, the cover letter indicated that no further State Clearinghouse review action by the Commission was required for compliance with the North Carolina Environmental Policy Act.

On September 3, 2014 the Applicant filed a registration statement for a new renewable energy facility, and a certificate of service stating that the public notice and a copy of the application were provided to Duke Energy Progress, Inc. on

August 29, 2014. The registration statement included certified attestations that (1) the facility is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; (2) the facility will be operated as a new renewable energy facility; (3) the Applicant will not remarket or otherwise resell any renewable energy certificates (RECs) sold to an electric power supplier to comply with G.S. 62-133.8; and (4) the Applicant will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On September 8, 2014, the Applicant filed a letter to the Chief Clerk clarifying that the capacity of the proposed generating facility is 5.0 MW_{AC}.

On September 10, 2014, the Applicant filed a certificate of service stating that the public notice and a copy of the application were provided to Electricities of North Carolina, Inc. on June 24, 2014. Discussion with the Applicant indicated that the certificate of service filed on September 3, 2014 was in error.

The Public Staff presented this matter to the Commission at its Regular Staff Conference on September 22, 2014. The Public Staff recommended that the Commission approve the application, issue the requested certificate, and accept the registration statement.

After careful consideration, the Commission finds good cause to approve the application and issue the attached certificate of public convenience and necessity for the proposed solar photovoltaic electric generating facility. The Commission further finds good cause, based upon the foregoing and the entire record in this proceeding, to accept registration of the facility as a new renewable energy facility. The Applicant shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year and will be required to participate in the NC-RETS REC tracking system (<http://www.ncrets.org>) in order to facilitate the issuance of RECs.

IT IS, THEREFORE, ORDERED as follows:

1. That the application filed by Mount Olive I, LLC, for a certificate of public convenience and necessity shall be, and is hereby, approved.
2. That Appendix A shall constitute the certificate of public convenience and necessity issued to Mount Olive I, LLC, for the 5-MW_{AC} solar photovoltaic electric generating facility located in Wilson County at 6680 Ward Blvd, Wilson, North Carolina.
3. That the registration statement filed by Mount Olive I, LLC, for its solar photovoltaic facility located in Wilson County, North Carolina, as a new renewable energy facility shall be, and is hereby, accepted.

4. That Mount Olive I, LLC, shall annually file the information required by Commission Rule R8-66 on or before April 1 of each year.

ISSUED BY ORDER OF THE COMMISSION.

This the 23rd day of September, 2014.
