**Re: Hog Creek Wind Farm, LLC,
Case No. 09-277-EL-BGN**

Dear Ms. McNeal:

This is a courtesy letter to the Ohio Power Siting Board (“Board”) to inform the Board that the ownership of Hog Creek Wind Farm, LLC (“Hog Creek”) has changed as of February 2016. Hog Creek is now indirectly owned and controlled by Renewable Energy Systems Americas Inc. (“RES Americas”). RES Americas is one of the top renewable energy companies in North America. RES Americas has been active in North America since 1997, and has a renewable energy and storage construction portfolio that exceeds 7,500 MW and over 80 projects, as well as 600 miles of transmission lines.

Because this transaction at the ownership level of Hog Creek is not a transfer of the certificate as contemplated by Ohio Revised Code Section 4906.04, no application is required. This letter is provided as a courtesy so that the Board will have current information on the personnel involved with the project.

The primary point of contact for the RES Americas team for the Hog Creek project is Mason Sorenson, Senior Development Manager, at (612) 455-8442 or mason.sorenson@res-americas.com.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Sally W. Bloomfield
