Route 66 Wind Power, LLC

)

Docket No. EG15-_____

**NOTICE OF SELF-CERTIFICATION OF
EXEMPT WHOLESALE GENERATOR STATUS**

Pursuant to the Public Utility Holding Company Act of 2005 (PUHCA 2005),¹ and section 366.7 of the regulations of the Federal Energy Regulatory Commission (FERC or Commission), 18 C.F.R § 366.7 (2014), Route 66 Wind Power, LLC (Applicant) hereby submits this notice of self-certification as an exempt wholesale generator (EWG), as defined in section 366.1 of the Commission's regulations, 18 C.F.R. § 366.1.

I. COMMUNICATIONS

All communications regarding this Notice should be directed to:

Margaret A. Moore
Jessica C. Friedman
Van Ness Feldman, LLP
1050 Thomas Jefferson St., NW
Washington, DC 20007
Tel: (202) 298-1800
mam@vnf.com
jcf@vnf.com

II. REPRESENTATIONS

1. Applicant is a Delaware limited liability company that is constructing and will own and operate an approximately 150 MW (nameplate rating) wind-powered electric generation facility located in Carson and Armstrong counties, Texas (Facility).

¹ Pub. L. No. 109-58, 119 Stat. 594, § 1266 (Aug. 8, 2005).

2. Applicant will be engaged directly and exclusively in the business of owning and operating the Facility and selling electric energy at wholesale.²
3. Applicant does not intend to make any foreign sales of power from the Facility.
4. The Facility will be an eligible facility as defined in section 32(a)(2) of the Public Utility Holding Company Act of 1935, which is incorporated by reference in section 366.1 of the Commission's regulations, 18 C.F.R. § 366.1.
5. The electricity produced by the Facility will be sold exclusively at wholesale to third parties.
6. The Facility will consist of 75 Vestas wind turbines and interconnection equipment necessary to connect the Facility to the transmission grid. The Facility is expected to achieve commercial operation in August 2015.
7. The Facility will be interconnected to the transmission system owned by Sharyland Utilities, L.P. and operated by Electric Reliability Council of Texas, Inc.
8. There are no lease arrangements involving the Facility pursuant to which Applicant is the lessor.

² Applicant may be engaged in the sale of ancillary services as a by-product that is incidental to the wholesale electric energy sales from the Facility, as permitted by the Commission in Sithe Framingham, LLC, 83 FERC ¶ 61,106 (1998). In addition, Applicant may be engaged in the sale of renewable energy credits (RECs) associated with the electricity produced by the Facility. The Commission has determined that the sale of RECs associated with an eligible facility is an activity incidental to an EWG's business of owning and operating an eligible facility and selling electricity at wholesale. Madison Windpower, LLC, 93 FERC ¶ 61,270 (2000).

9. No portion of the Facility will be owned or operated by an electric utility company that is an affiliate or associate company of Applicant, as those terms are defined in PUHCA 2005.
10. No rate or charge for, or in connection with, the construction of the Facility, or for electric energy produced by the Facility, was in effect under the law of any state on October 24, 1992. As such, no determination or certification by any state commission is necessary prior to certification of Applicant as an EWG.
11. Concurrently with the filing of this Notice with the Commission, Applicant is filing a copy of this Notice with the Public Utility Commission of Texas, which is the state regulatory authority of the state in which the Facility is located.
12. A form of notice of Applicant's notice of self-certification suitable for publication in the Federal Register is attached.

III. CONCLUSION

Wherefore, based upon the facts, representations, and statements above, Applicant respectfully requests that the Commission accept this notice of self-certification of EWG status.

Respectfully submitted,

/s/ Jessica C. Friedman

Docket No. EG15-_____

NOTICE OF FILING

Take notice that on June 17, 2015, pursuant to the Public Utility Holding Company Act of 2005, and section 366.7 of the regulations of the Federal Energy Regulatory Commission (FERC or Commission), 18 C.F.R. § 366.7 (2014), Route 66 Wind Power, LLC (Applicant) submitted a notice of self-certification as an exempt wholesale generator, as defined in section 366.1 of the Commission's regulations, 18 C.F.R. § 366.1.

Applicant is constructing and will own and operate an approximately 150 MW (nameplate) wind-powered electric generation facility located in Carson and Armstrong counties, Texas (Facility). The Facility will be interconnected to the transmission system owned by Sharyland Utilities, L.P. and operated by Electric Reliability Council of Texas, Inc.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 C.F.R. 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 pm Eastern Time on _____, 2015.

Kimberly D. Bose
Secretary
