

Veresen Announces Sale of Glen Park Merchant Power Facility for US\$61 Million

CALGARY, ALBERTA--(Marketwired - May 24, 2016) - Veresen Inc. ("Veresen") (TSX:VSN) announced today that it has entered into a definitive agreement for the sale of its 33 megawatt Glen Park hydro power generation facility for proceeds of US\$61 million plus working capital at closing. Glen Park, located near Watertown in upstate New York, is contract operated and sells its output on a month-to-month basis at prevailing market prices.

"The sale of Glen Park reflects our continuing efforts to optimize our portfolio," commented Don Althoff, President and CEO of Veresen. "This divestiture provides additional flexibility beyond our expected DRIP proceeds to fund our contracted growth program."

The transaction is expected to close in the third quarter of 2016, subject to customary closing conditions including the approval of the U.S. Federal Energy Regulatory Commission. The transaction is not expected to have a material impact on Veresen's 2016 financial performance. Veresen is maintaining its full year distributable cash guidance of \$0.94 per Common Share to \$1.08 per Common Share and expects distributable cash from the Power business to remain in the range of \$47 million to \$54 million.

About Veresen Inc.

Veresen is a publicly-traded dividend paying corporation based in Calgary, Alberta that owns and operates energy infrastructure assets across North America. Veresen is engaged in three principal businesses: a pipeline transportation business comprised of interests in the Alliance Pipeline, the Ruby Pipeline and the Alberta Ethane Gathering System; a midstream business which includes a partnership interest in Veresen Midstream Limited Partnership which owns assets in western Canada, and an ownership interest in Aux Sable which owns a world-class natural gas liquids (NGL) extraction facility near Chicago and other natural gas and NGL processing infrastructure; and a power business comprised of a portfolio of assets in Canada. Veresen is also working to advance Jordan Cove LNG, a six million tonne per annum natural gas liquefaction facility proposed to be constructed in Coos Bay, Oregon, and the associated Pacific Connector Gas Pipeline. In the normal course of business, Veresen regularly evaluates and pursues acquisition and development opportunities.

Veresen's Common Shares, Cumulative Redeemable Preferred Shares, Series A, Cumulative Redeemable Preferred Shares, Series C, and Cumulative Redeemable Preferred Shares, Series E trade on the Toronto Stock Exchange under the symbols "VSN", "VSN.PR.A", "VSN.PR.C" and "VSN.PR.E", respectively.
