

Informational Open House Thursday — November 8, 2012

5:30 p.m. — 8:00 p.m.
Atkins Elementary School
5903 Lee Highway
Atkins, VA 24311

Competitive Power Ventures (CPV) is proposing to build a 762-megawatt combined-cycle electric generating facility in Smyth County to help meet the energy needs of the region.

Using clean-burning natural gas, and state-of-the-art technology, the proposed facility will generate enough electricity to power more than 750,000 homes.

Attend this free informational open house to learn more about:

- ◆ *The company and its commitment to compatibility with the environment*
- ◆ *Proposed technology*
- ◆ *How this project supports the need for diverse energy sources in the state and the region*
- ◆ *Job creation*
- ◆ *Significant economic benefits to local and regional economy*
