If SCE's rate request is approved by the CPUC, the average residential monthly bill would increase by approximately \$14 in 2021, \$4 in 2022, and \$6 in 2023. The impacts will be less for lower-income residential customers enrolled in the California Alternate Rates for Energy (CARE) program: \$9.50 in 2021, \$3 in 2022, and \$4 in 2023. For more information please see SCE's customer notice at <https://bit.ly/2HIEmCn>.

Public Forum

The public forums, called Public Participation Hearings, will begin with a brief overview of SCE's request; then public comments will be heard.

The CPUC welcomes attendance and comment on SCE's request at these public forums, as public comments will help the CPUC reach an informed decision. The Administrative Law Judges are scheduled to write a Proposed Decision in the case for CPUC Commissioner consideration within a year.

Remote access is available for certain public forums to provide additional means of access. Customers who cannot attend a public forum in person, can listen/watch one of the forums that offers remote access.

For those unable to attend in person, written comments may be submitted to: CPUC Public Advisor, 505 Van Ness Ave., San Francisco, CA 94102, or via email to public.advisor@cpuc.ca.gov. Please refer to proceeding number A.19-08-013 on any written or email correspondence. All public comments received are provided to the CPUC's Commissioners and the Administrative Law Judges assigned to the proceeding.

On August 30, 2019, SCE submitted an application requesting CPUC approval to increase its electric distribution and electric generation revenues by \$7.625 billion (or 20.5 percent) in 2021 over current revenues.

While a quorum of Commissioners and/or their staff may attend, no official action will be taken on this matter at the public forums.
